

REJUVENATION PROTOCOL

A three-step protocol comprising three sessions a fortnight apart + two sessions a month apart is recommended for optimal and lasting results.

A twice-yearly protocol is recommended to maintain results.^[4] Your physician will tailor-make a comprehensive protocol reflecting your skin's needs.

NCTF[®] 135 HA 100% REJUVENATION

1/ IS IT FOR YOU?

NCTF[®] 135 HA can be used at any age** and by any skin type, to correct visible signs of aging. It is particularly suitable for women or men seeking a rested appearance, and healthy-looking skin.

2/ WHAT HAPPENS DURING TREATMENT?

NCTF[®] 135 HA is administered in a clinical setting, by a doctor who has been trained in multipuncture injection techniques. Each treatment lasts approximately 20 minutes with minimal pain. It involves repeated microinjections of NCTF[®] 135 HA into the dermis.

3/ AT HOME

To accompany in-clinic protocols, and bring the skin daily care, FILLMED has developed SKIN PERFUSION, a high-performance anti-aging skincare range.

** Not to be used by children or pregnant or breast-feeding women.
