ABOUT ME

I am Donna a fully qualified advanced skincare specialist and aesthetic practitioner with over 20 years experience in the industry. I believe each skin is individual. The “one size fits all” approach does not work, this is why I tailor and customise each Bridal Package to suit the individual skin concerns and goals. Your wedding day is all eyes are on you, so your bridal preparation should be planned well ahead of time to ensure your skin looks it's best on the day and long term after.
